AMERICAN COMMUNITY SURVEY

Housing: Question on Insurance (H-21)

HISTORY OF THE INSURANCE QUESTION

- The question on insurance has been asked since 1980.
- The question also was asked on the Census 2000 long-form questionnaire.

WHY WE ASK IT THIS WAY

The question about insurance is part of a question about monthly housing costs for mortgages; real estate taxes; fire, hazard, and flood insurance; utilities; fuels; etc. Listing these items separately on the questionnaire improves accuracy of the responses about each item. When combined with income data, this item is used to measure housing affordability and excessive shelter costs.

WHAT IS THE AMERICAN COMMUNITY SURVEY?

The American Community Survey (ACS) is a nationwide survey that collects socioeconomic and housing information and is the planned replacement for the long form in the 2010 Census.

The U.S. Census Bureau plans to conduct the ACS in every county, American Indian and Alaska Native Area, Hawaiian Home Land, and in Puerto Rico, once it is fully implemented, pending Congressional funding. The ACS has been tested across the country since 1996.

HOW CAN I SEE THE RESULTS OF THE SURVEY ?

The information collected from these tests is published on the Census Bureau's Web site at:

<www.census.gov/acs/www>

and American FactFinder at:
